

# **ACTIVE SHOOTER** *and* **BOMB THREAT WEBINAR**

## OVERVIEW

This presentation focuses specifically on two of the more prevalent types of active threat: the active shooter and bomb threat responses. Attendees will learn about the various definitions, scope and types of active threats as well as basic tactics to deal with potentially dangerous situations when confronted with ongoing active threat of violence or other, similar hazards.

This program may be customized to include site specific contacts, policies/procedures, and other company or site specific information (recommended).

## TOPICS

- Defining active threats
- Scope of the workplace violence problem
- Warning signs of potential violence
- What to expect during active threat situations
- Workplace violence & bomb threat procedures
