

CPR, FIRST AID, and AED

Course #41117

OVERVIEW

The CPR, First Aid and AED course is a training program designed specifically for the occupational first aid provider. This extremely flexible program will help organizations meet OSHA and other federal and state regulatory requirements in training employees on how to respond and care for medical emergencies.

This program includes a certificate of completion and conforms to the 2020 Updates for CPR and ECC and 2020 AHA and ARC Update for First Aid. The course is consistently rated as a best-in-class experience by attendees for achieving increased awareness, confidence and skills.

TOPICS

- Scene hazard awareness & personal safety
