FIRE EXTINGUISHER WEBINAR

Course #41139

OVERVIEW

The Fire Extinguisher webinar course supports training of employees, staff and occupant Emergency Response Teams in awareness of the safe use of multi-class (ABC type) fire extinguishers found most commonly in the workplace.

OSHA (1910.157) requires training for portable fire extinguishers when employees are delegated or allowed to use portable fire extinguishers.

TOPICS

- Hazard classes & appropriate extinguisher type
- Hazards related to smoke & fire
- Fight or flight assessment
- Safe use of fire extinguisher
